

## Line Card

[www.ets-lindgren.com](http://www.ets-lindgren.com)

### EMCO

World leader in the design and manufacture of EMC Antennas and EMC test accessories. Products include G-TEM test cells, towers, turntables, controllers, LISNS, near field probes, current probes, bulk current injection probes, etc.

### Rantec / Rayproof

America's largest designer and manufacturer of EMC test chambers for radiated susceptibility and emissions. Also, pre-compliance rooms, shielded enclosures, MRI rooms plus fully anechoic and tapered chambers for antenna and telecommunications testing.

### Lindgren RF Enclosures

The world's largest shielded enclosure manufacturer. Product styles include welded, modular, copper screen and double isolated rooms plus associated accessories such as doors, waveguides, vents, etc.

### Holaday Industries

Holaday is dedicated to the development and manufacture of electromagnetic radiation measurement and safety products. They offer a comprehensive line of instruments, accessories and services for EMF radiation hazard markets, complemented by a world-class calibration facility and an application engineering staff that can provide for your specialized needs.

### Acoustic Systems

For 3 decades, Acoustic Systems has researched, designed and manufactured noise control enclosures with cutting-edge sound isolation technology. By combining groundbreaking scientific research with modular construction techniques, they ensure that their enclosures meet pre-determined acoustic performance criteria while being cost-effective, re-locatable, and easier to assemble in the field when compared to conventional construction. They regularly submit products to rigorous acoustic testing in their NVLAP accredited laboratory.

[www.captorcorp.com](http://www.captorcorp.com)

A leader in the field of custom EMI/RFI filters. Captor filters are custom designed to your specifications in every configuration, from sub-miniature filters to shielded room units, over a broad range of frequency and power requirements.

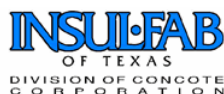

[www.rohde-schwarz.com](http://www.rohde-schwarz.com)

Manufacturer of EMC instrumentation systems for all compliant EMC testing. Emissions systems from 20 Hz to 40 GHz and immunity systems from 150 KHz to 40 GHz. Fully automated software controlled. Only manufacturer of fully compliant receivers.

[www.milmega.com](http://www.milmega.com)

Designer, developer and manufacturer of solid state high-power broadband amplifiers for commercial and government purposes. Frequency ranges from 800 MHz to 11.5 GHz with power levels from 1 Watt to above 1 kiloWatt. They offer a comprehensive product line of standard microwave amplifiers that offer both quality and flexibility allowing them to operate reliably in diverse and demanding environments.

**Insul-Fab of Texas**

[www.insulfab.net](http://www.insulfab.net)

- Custom fabricator of materials for the electronics market:
- EMI Gasketing: CF2 series, UL rated, X-Y-Z axis conductive foam for I/O gaskets and grounding.
- Dielectric Insulation: Materials for safety and UL compliance. ITW Formex authorized Fabricator / Distributor.
- EMI / RFI Shielding Laminates: Foils laminated to insulating substrates such as Formex, Mylar, and Lexan.
- Adhesives: Foil tapes with conductive/non-conductive adhesives. 3M authorized fabricator.

Samples and quick-turn prototypes available, free of charge.

**HV Technologies**

[www.hvtechnologies.com](http://www.hvtechnologies.com)

Test Systems for DO-160 Sections 17, 19, 22, and 25  
Test Systems for MIL-STD-461, CS106, CS115, and CS116

**Intermark (USA), Inc.**

[www.intermark-usa.com](http://www.intermark-usa.com)

Product lines comprise a wide range of ferrite products for EMI suppression, cable shielding materials, grounding fasteners and conductive gaskets. Other product line segments include a complete selection of plastic fasteners and hardware for the electronic packaging, optical fiber inspection equipment and thermal management components.

**Sabritec**

[www.sabritec.com](http://www.sabritec.com)

Full service engineering and manufacturer specializing in high speed fiber channel, fiber optic, Twinaxial Filter Connectors, EMP Connectors, Custom Power Connectors, Coaxial and Triaxial RF Connectors and Adapters, NDL MIL-STD-1553 DATA BUS Ultraminiature Triaxial Connectors and Cable Assemblies.

Vermillion, Inc.

[www.vermillioninc.com](http://www.vermillioninc.com)

Manufacturer of high-performance shielded cables and cable harness assemblies used in military and commercial aircraft, satellites and secure data communication system and organized wiring. Features Vermalloy shielding for excellent low frequency (magnetic) shielding performance. Flattened shielding available for lightweight requirements. Certified to ISO 9001.
